

Workforce Millennials: A BNET Field Guide

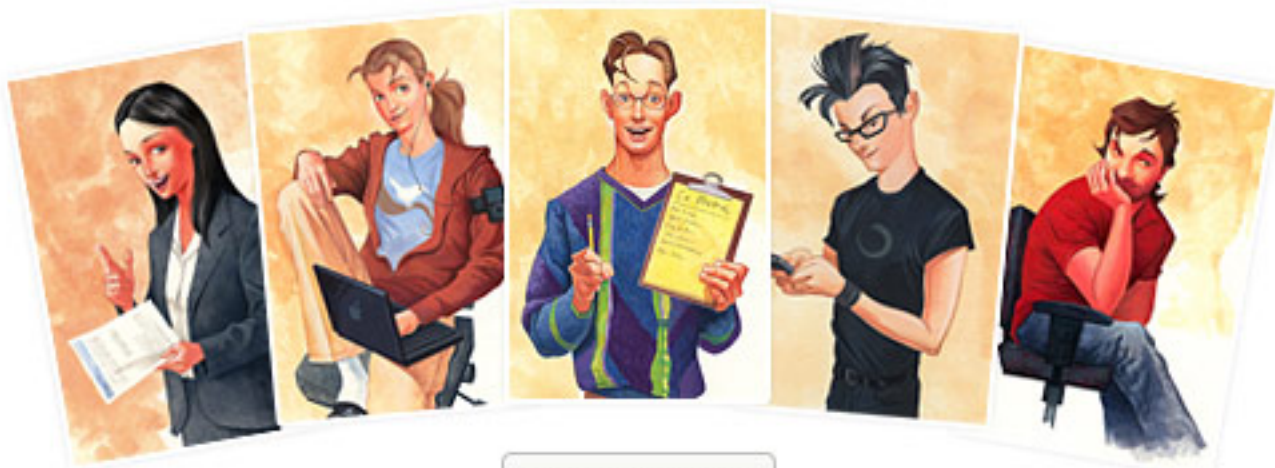

By Jake Swearingen

published on BNET.com 5/19/2008

The next generation of workers need not be a frightening species. Yes, they're different from boomers and Xers, but like most employees, they respond well to high expectations and accountability, consistent feedback, and a little understanding. We've mapped out five common millennial types you may encounter in the wilds of the workplace, along with care and feeding instructions to keep them happy (and productive) employees.

A horizontal line with a series of small, dark, circular rings representing a spiral binding, positioned above the title.
