## AVI BioPharma, Inc. Q2 2008 Earnings Call Transcript

### Question-and-Answer Session

---

#### **Operator**

Thank you. (Operator instructions).

#### **Michael Hubbard**

Given that we have no questions currently, we thank you all for participating and I'll turn it over once again for final comments by Dr. Hudson.

#### **Dr. Leslie Hudson**

Well, thank you for listening. We had quite a number of callers and I hope at least it actually is a testimonial to the clarity of the new format of our press release that in fact it raised no questions. Hopefully though it did raise some interest. If I may end with a notice, we have an Analysts and Investors Breakfast on the 10<sup>th</sup> of September from 7:30 until 10:30. It will be at the Harvard Club of New York City. In addition to members of the management team, in particular the R&D leadership, because we want to take the opportunity of giving some depth around our new programs and their implications, also the ability to meet with the new CFO, we will actually have a presentation in the field of exon skipping particularly as it's applied to DMD, and it will be given by Professor Francesco Muntoni, who although he is a collaborator of the Company in fact is also a well-recognized international expert in DMD. We look forward to you joining us there. We thank you for your courtesy and listening. And we wish you all a very good morning. Thank you very much indeed.

#### **Operator**

And that will conclude today's call. We thank you for your participation.
